Parryware, India's leading brand for bathroom products, started its journey more than 60 years ago and has been defining the styles of changing Indian bathrooms since then. From a humble start to the present manufacturing process across eight manufacturing units, it has strategically focused on production across the country and is distributed through a vast network of retail partners, making the products available in every nook and corner of the country

The brand boasts of a wide range of products which includes vitreous china sanitary wares, faucets & fittings, bathtubs, whirlpools, bathroom furniture, electronic flushing systems, plastic and concealed cisterns, toilet seats, Accessories, Water Heaters and kitchen sinks.

Parryware is now focusing on changing the face of the plumbing system in India. Taking a step ahead from its vast range of products, Parryware has launched a brand new range of pipes and fittings for all your plumbing needs.

The product range offers durable, safe and easy installation plumbing system for hot and cold water applications. All products will go through a stringent quality check protocol, thus, meeting the highest safety standards.

True to its legacy, Parryware continues to progress from strength to strength and will steer ahead as a provider of complete and contemporary bathroom and plumbing solutions for India.

CPVC Pipes & Fittings from Parryware is the perfect plumbing solution for your homes. We believe in providing our customers with the highest quality products and so, our manufacturing system adheres to the highest level of international quality. You can be assured that you have made the right choice.

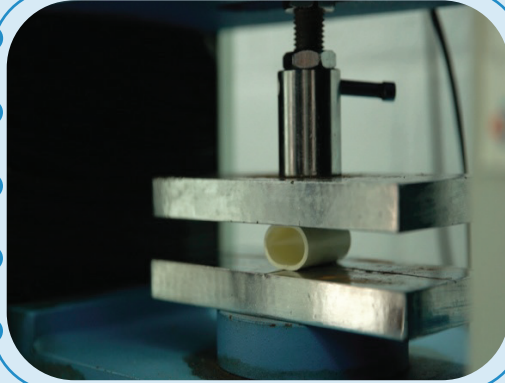

HYDROSTATIC PRESSURE TEST

THERMOCYCLIC TEST

BALL VALVE REDUCING TEST

UNIVERSAL TENSILE TEST

OPACITY TEST

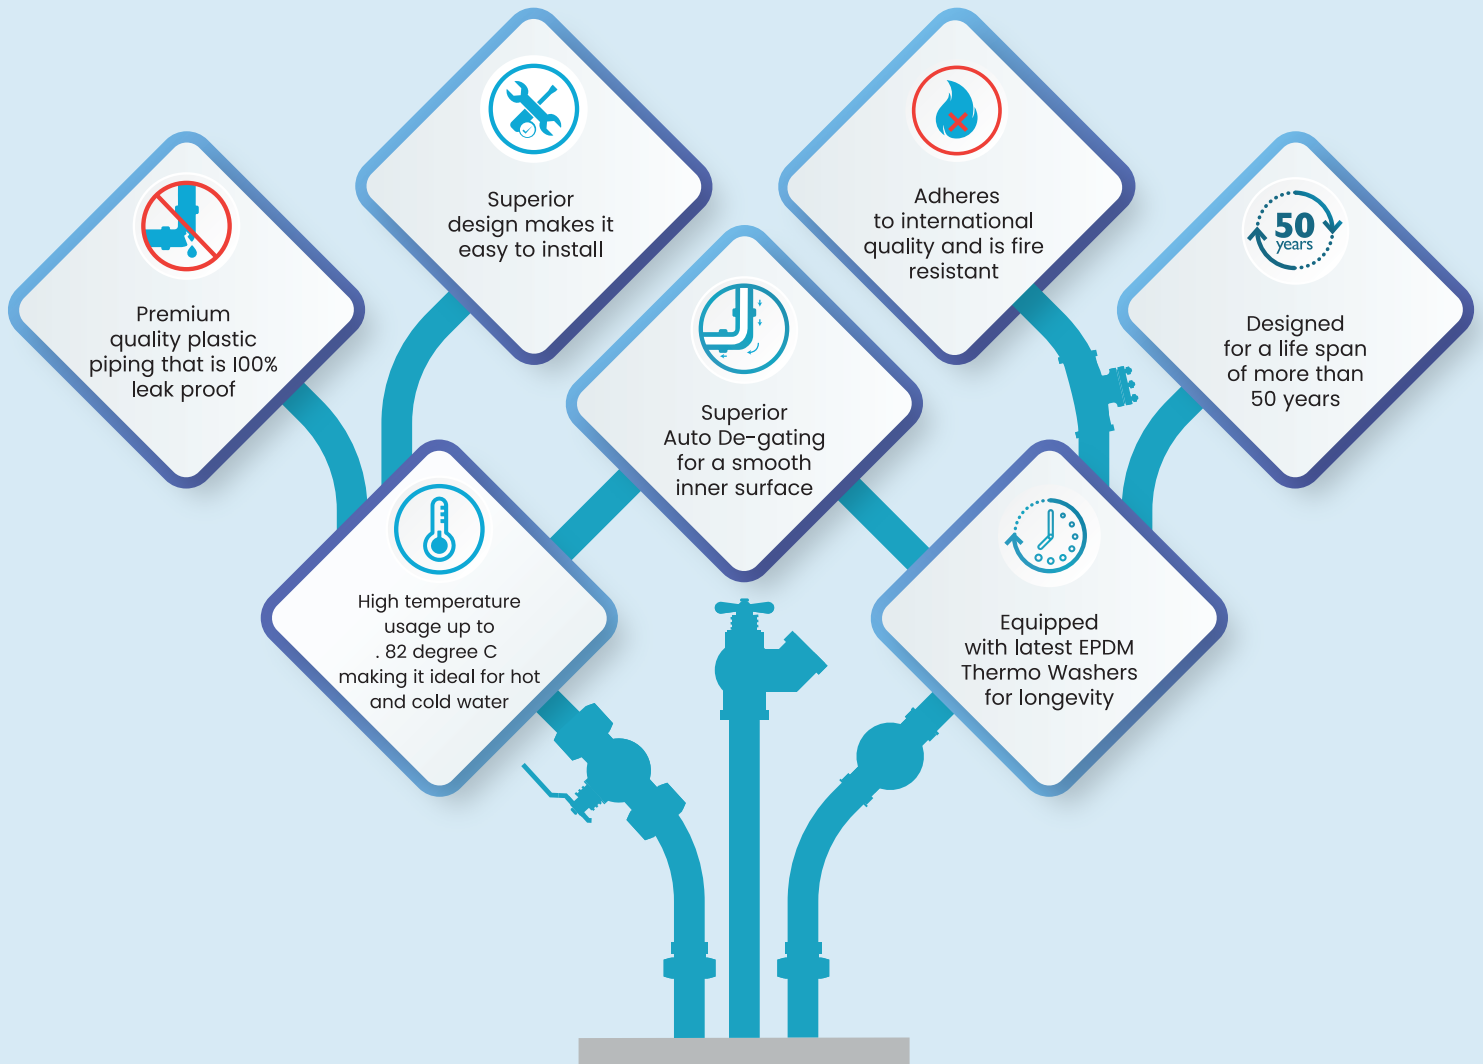

DENSITY TEST

IMPACT TEST

REVERSION OIL BATH TEST

VICAT SOFTENING POINT TEST

Why is Parryware CPVC the best choice for quality par excellence?

PARRYWARE DELIVERS QUALITY YOU CAN TRUST

We ensure **safe potable water** by undertaking thorough water tests on all our CPVC products, ensuring harmful chemicals like lead, tin, mercury etc. does not affect one's health.

We strictly follow the standards set by international organisations like WHO, and are **certified safe by Central Institute of Plastics Engineering Technology**

AUTO DE-GATING

Auto De-Gating eliminates the need of manual removal of runner gates. It is highly beneficial.

- Absence of runner gates ensure a smooth surface finish
- Minimises human error and plastic wastage by eliminating manual cutting
- Smooth surface ensures easy installation, convenience and safety for plumbers
- Improves **withstanding capacity up to 5%** with better results in pressure test

POWER FLOW

Parryware has partnered with one of the leading manufacturers of CPVC Resin in the world and perfected the mixture compound. Chlorinated Polyvinyl Chloride (CPVC) has been the most popular choice of material for potable water supply for more than 50 years. **Parryware Power Flow** is an ideal choice as

CPVC materials do not support combustion, therefore they cannot burn without external fuel source.

Offers the widest range of pipes and fittings, with up to **2 inches**

Superior quality keeps potable water **pure and safe**

So, go ahead and make the right choice for your home's plumbing system with Parryware's superior quality CPVC Pipes & Fittings.

Parryware

Pipes & Fittings

STRONGER PIPES, LONGER LIFE

uPVC

Lead Free

Easy Installation

Lowest Bacterial Growth

Seepage Free

Odourless

Non Corrosive

Fire Resistant

uPVC Pipes & Fittings

HIGH FLOW RATE

Smooth inner surface ensures high flow rate and low friction losses. Ensure no scaling or choking.

CHEMICAL RESISTANCE

uPVC is generally inert to most mineral acids, bases, salts and paraffinic hydrocarbon solutions.

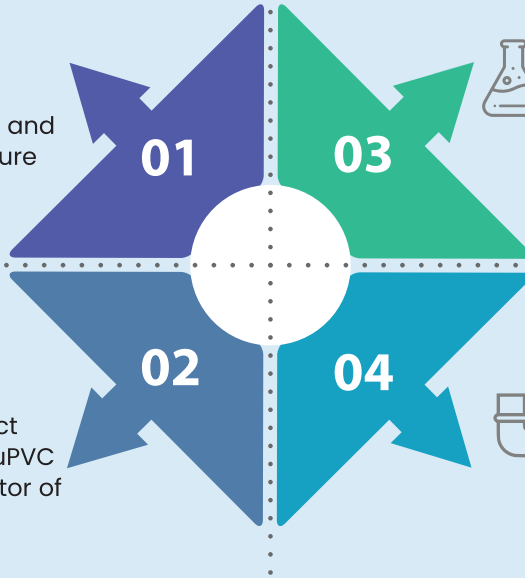

GOOD INSULATOR

uPVC does not conduct electricity. Parryware uPVC pipes are non conductor of electricity

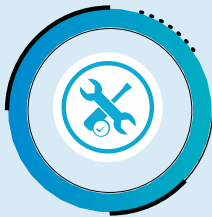

WIDE RANGE

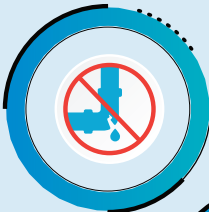

Wide range of Lead free uPVC pipes & fittings, ball valves and specially designed brass inserted fittings to suit any design criteria.

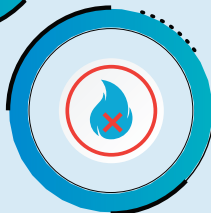

Superior design makes it easy to install

Premium quality plastic piping that is 100% leak proof

Adheres to international quality and is fire resistant

High temperature usage up to 82 degree C making it ideal for hot and cold water

Designed for a life span of more than 50 years

Equipped with latest EPDM Thermo Washers for longevity

Superior Auto De-gating for a smooth inner surface

Why is Parryware uPVC the best choice for quality par excellence?

uPVC

Parryware

Pipes & Fittings

STRONGER PIPES, LONGER LIFE

SWR

Seepage Free

Chemical Resistant

High Flow rates

UV Resistant

Light weight

Non Corrosive

Rigid & Sturdy

Why *Parryware* SWR Pipes & Fittings?

As a leading manufacturer of bathroom products in India, Parryware has garnered vast experience in understanding the plumbing system in India.

Our new range of SWR pipes and fittings are designed to meet international quality standards as they are manufactured at state of the art facilities with advanced machineries for superior quality.

The new range of pipes and fittings launched by Parryware is designed with a critical understanding of Indian plumbing system while offering contemporary solutions to address all your needs.

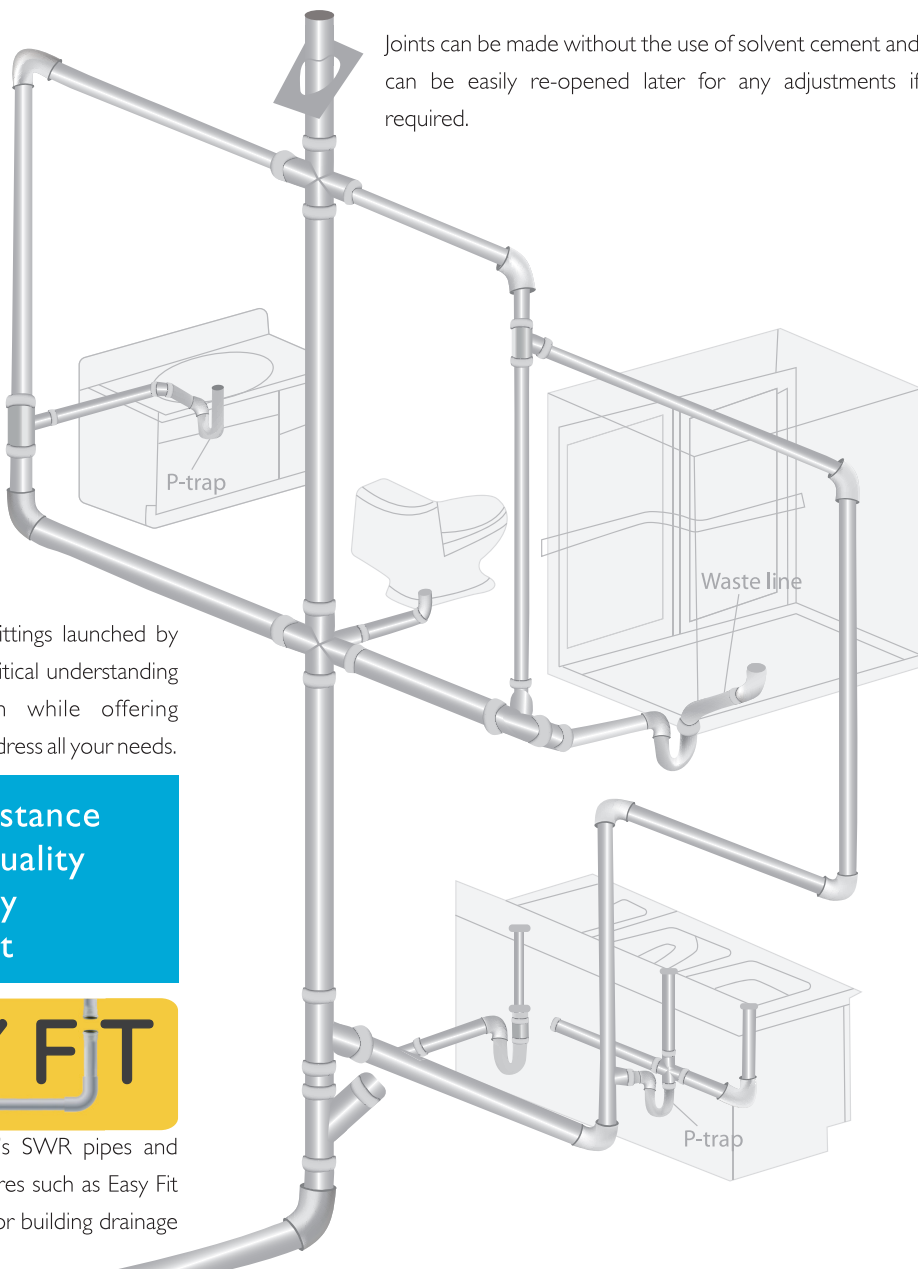

- Impact Resistance
- Premium Quality
- High Rigidity
- UV resistant

EASY FIT

The wide range of Parryware's SWR pipes and fittings, along with unique features such as Easy Fit Ring, render the best solution for building drainage systems.

- Prefitted Rings
- Quick & easy Installation
- Strong & durable
- 100% Leak proof
- High pressure resistant
- Sustain thermal contraction and expansion.

Joints can be made without the use of solvent cement and can be easily re-opened later for any adjustments if required.

In order to assure you of the originality of our products, our SWR pipes are provided with a hologram and a QR code.

The hologram on Parryware's SWR pipes indicates authenticity of the product and ensures that we have delivered the best possible quality. Additionally, every SWR pipe comes with a QR code which instantly allows you to access information about the pipe.

What is Power Flow?

Parryware's SWR pipes and fittings are designed to accommodate Power Flow for optimal performance.

The dynamic Power Flow system is built to endure high flow rates while maintaining low friction. High flow rates are achieved by the

smooth interiors of Parryware's SWR pipes, while also lowering friction in the flow.

The low friction value of these pipes result in increased water flow. The smooth surface of the pipes effectively prevents deposit and buildup of mineral waste.

As a result, there is no scaling, depositions, and choking in Parryware's SWR pipes.

Ultimately, the Power Flow system expands the functionality of Parryware's SWR pipes by preventing corrosion and enhancing performance.
